

Newsletter index – sorted to Newsletter issue order

Under each “Issue” below you will find in which Newsletter an important report is made, with the most recent shown first. To access a Newsletter double click on the Newsletter concerned. Page 2 of each Newsletter shows where specific reports are to be found, so refer to this in order to find the right page.

To obtain a full cumulative view of the Society’s stance on each “Issue”, please read all such indexed reports, especially the most recent.

*What is shown here in italics will not remain for long on the website, as it describes mainly how it is proposed that the website be put together and maintained. The table below is created first in Word, in Newsletter date order, and then sorted to alphabetic Issue order for publication on the website. Ignore the last column – this is only needed for the sorting and will be omitted soon from the website.*

*The website shows the Society’s stance on each “Issue” in this way, in order to reduce the effort required to keep the website up to date, and to avoid duplicating or paraphrasing what can be found in each Newsletter, whilst nevertheless giving a full and up to date view of its stance on all important “Issues”.*

*Later we may wish to add to the website and here other documents expressing the Society’s formal comments made to planners on some matters, such as on the District Plan, or Bircherley Green, in order to give full picture on an “Issue”.*

Indexing presently covers only major planning applications and other major issues from Spring 2013 onwards. What constitutes “major” here is somewhat subjective, and omits many individual planning applications which can be found in Newsletters under Planning Matters – use the application date.

The Newsletter also includes AGM papers and reports of all of our events and activities, which are not presently indexed. All members receive the Newsletter.

| Issue                        | Newsletter    | Section of Newsletter – see page 2                  | Ignore |
